Dear Gibson Trust,

Thank you for the grant which enabled me to complete the shed for my young dairy stock. The form filling was very straight forward and no burden as there is with a lot of form filling. The shed is a great time saver and the stock are doing well in their new accommodation. I can see that the shed has great potential, even when the stock are out, for storage of fertiliser or round bales of hay or straw. So once again thank you very much.

Regards

Philip Crowstrey
